

HAZING WITNESS PUNISHED BY MEN OF HIS OWN CLASS

Midshipman Who Revealed
Pranks Gets Drenching
From Night Visitors.

ANNAPOLIS, Md., Nov. 9.—That midshipmen who had been called as witnesses for the prosecution in the hazing cases had been maltreated in their rooms in Bancroft Hall Tuesday night was the surprising statement made by Judge Advocate Murphy during the session of the court martial which is trying Midshipman John P. Gilmer Jr. on charges of hazing. The midshipman principally concerned in the attack was Joseph G. Bonifant, blamed by most of the other midshipmen as the prime mover in the present hazing episode.

Bonifant believes his own classmates were the only ones who attacked him. He was called to the stand and stated that Tuesday night a fourth classman, not known to him, came to his room and criticized him for his part in the trial.

Words followed and the visitor left after making a threat. Early yesterday, Bonifant said, a crowd, believed by him to be fourth classmen, came to his room, which is occupied by three other members of his class, and threw two buckets of water over him and one over his roommate, R. G. Allen, sparing the third. Allen is a witness in one of the cases, and the other is not.

During yesterday's session, the defense, upon which Gilmer, and probably the other accused midshipmen will rely, was well developed and much interest was taken in the fact that their interpretation of written communications and speeches of Admiral Wilson, Superintendent of the Academy, was taken as justification of the hazing practices.

Admiral Wilson, they claim, stated last May that it was proper that the freshmen should be taken out of the new midshipmen, but warned against brutality, interference with newcomers at meals and imposition of menial service.

Midshipmen Elbert L. Fryberger continued his testimony during the day. He was followed by Midshipman Henry M. Baker, midshipman commander of the regiment; Everett H. Browne, Charles D. Beaumont Jr. and others.

They testified to the high character and reputation of Midshipman Gilmer. Asked by the Judge Advocate as to the training value of such questions as "give the seagone name of whipped cream," the midshipmen said this was simply fun.

Lulo Blass, a young Italian painter, commissioned to paint portraits of several American women, arrived yesterday on the steamship Colombo from Naples and Genoa. He is a son of Count G. de Blass de Letze, whose Venetian scenes hang in the Metropolitan Museum of Art.

Signor Blass will remain about six months. He will not open a studio but work at the homes of his subjects.

\$50 takes you into exclusive lines

Many men figure that rightness in a suit or overcoat costs at least \$50 this fall. We will show you a line of seasonable fabrics at \$30, all pure virgin wool. Another line at \$35. An amazing selection at \$40. That is all you need pay for rightness.

\$50 takes you into exclusiveness. \$50 elevates you into imported English and Scotch stuffs. \$50 buys the warmest of the warm, the sturdiest of the sturdy, and the newest of the new.

If this sounds too unusual, remember that every garment is measured, cut, fitted and finished under this one roof, where tailoring is practised as an art, but managed as a business.

NOTE—Full dress (coat, waistcoat, trousers) silk-lined, \$80. Tuxedo, \$75. A few overcoats made to try on, \$45.

CITY TO SEE BIG ARMY AIRSHIP TO-MORROW

The D-3, the largest dirigible balloon owned by the United States Government, will be over Manhattan Island and the Lower Bay to-morrow morning, en route from the Aberdeen Proving Grounds in Maryland to West Point. The balloon will leave the proving

grounds at two in the morning, weather permitting, and will be over New York at 7:30. It will manoeuvre about the Statue of Liberty.

Then it will be piloted to Mitchell Field, where it will remain two hours, going to the Aeriel Show at Hartford, Conn., and then to West Point, where a demonstration will be made for the soldiers. The D-3 will leave West Point about 5 in the afternoon and return to Aberdeen about midnight.

The dirigible is 265 feet over all, just half the size of the ill-fated Rona. It is equipped with two 180-horse-power motors and has a cruising radius of twenty flying hours. It is expected to

carry 150,000 cubic feet of helium gas. It will be piloted by Maj. Oscar Westover, who will be in command, and Capt. N. E. Kepner. Three mechanics will comprise the crew.
